An assistant cook in the employ of Mesara Lane, Grawford & Co., was brought before even so severe the offect may have been Mr Wise at the Police Court this morning, very bad. charged with stealing coffee beans from his amployers' godown. A Sikh constable ar rested the defendant in the act of carrying away a bag of coffee beans last night. The sentence was one month's hard labour.

Engineers and Shipbuilders of Hongkong institution, occupied the chair. Chairman said advantage had been taken of the statutory meeting to submit statement of the progress of the association. He was very pleased to see that the society had made distinct progress. One very gratifying feature was that the association was more than paying its way. There was no doubt that an institution such as this had a great many difficulties the first six m aths they had done much They had a balance in hand of \$321.24. Mr Walker, the secretary, stated that there were one hundred and forty-three members on the rull.

A meeting of the Sanitary Board was held this afternoon. Hon. S. Brown, Surveyor General, presided, and there were also present:-Hon, J. H. Stewart Lockhart, Registrar General; Dr Ayres, Colonial Surgeon; Mr.G. Horspool, Acting Captain Superintendent of Police, and Mr J. D. Humphreys. There was laid on the table letter from the Colonial Secretary with regard to the Tytam supply, in which it was stated that the cause of the whitish appearance of the water and the best means of rectifying it were being investigated, and that a further communication would be made when definite information on the subject year may be expected to mark an advance could be given. A complaint regarding a in the success of mining schemes within amoke nuisance at No. 79 Wyndham St. caused by a washerman's establishment, was laid on the table. The Sanitary Superintendent recommended that the washerman should be called upon to abate the Sungei Dua Concession considerable tin nuisance within a month, failing which, s prosecution should be instituted. On the motion of the Registrar General, the Board adopted this recommendation. There was no other business of public interest.

THE result of the census is satisfactory. The amount of ready cash in the Colony may not be so large as it was a few years ago, and many residents may be lamenting a beavy shrinkage in the value of jointstock shares, but the growth of the colony has not been arrested. If we had figures for each year of the past decade, it migh be seen that the increase of the population for the last two years has not been great. But be that as it may, the fact remains that the Chinese population has increased 40% my lump of Charbonnage coal presented between 1881 and 1891-a rate of increase the identical appearance it did before has been made a peersas in recognition of which even Sydney cannot show, and which has been surpassed by very few large had been made by others with exactly the owns. The White population of Hongkong; however, has not increased part purposes, what further proof is wanted? passu with the Yollow population. In 1881 there were 7,990 Europeans and Americans, including military and Navy, and in 1891 the number had only risen to abandonment of that portion of the estate There exists a typhoun about East of 8,545, an increase of less than 7 %. If account is taken of the increase of the military force and if it is borne in mind that Macacese are included among Europeaus, it will be apparent that there has in latest development is in connection with all probability been rather a decrease than monetary matters which will, we under an increase of the real non-Asiatic element.

WE observe from papers received by the German Mail that Mr Arthur Stanley Wilson, of Tranby Croft, has been elected a member of the Marlborough Club. The members are admitted only with the sanc-tion of the Prince of Wales, who on this occasion was himself the nominator.

A Home paper received by the German Mail states :- The bears having been squeezed dry, the corner in Scotch pig The O. & O. Co.'s s. s. Oceanic, with the the price has suddenly fallen from 59s. to AMERICAN MAIL of June 13th, leaves 49s. per ton. The bull appeulators are Yokohama on Smidry, 5th July, at credited with holding an enormous quantity of warrants, one estimate putting it at 400,000 tons; and the question now is whother they can get out without letting prices down below the level at which they came in. The effect on the market has been thoroughly disorganizing and very little business has been done by consumers. Two new furnaces were blown in last week, bringing the number up to sixty live, as compared with eighty-five at the same period last year. The stocks in Connal's stores increased last week by 2,524 tons, to 515,000, which is 226,000 less than at the

corresponding period. REFERRING to the telegram reporting a severe earthquake at Ban Francisco, the Straits Times writes :- The last severe earthquake in San Francisco was early in The Austro-Hung, L. S. N. Co.'s steamship the fifties when considerable damage to property resulted, and the configuration of the city itself was somewhat altered. In 1872 a slight shock was also felt. These indications taught the San Francisco people some little discretion, and up till three years or so ago the buildings were kept at two storeys. Then the Palace Hotel was built up to nine storeys. This hotel is built with iron girder sections of which auyone can full without necessarily displacing the others. Following the erection of this hotel various similar buildings sprang up and, in the happy belief that the time of earthquakes had passed, since then many other high buildings have been erected. The earthquake some forty years ago was sufficiently violent to knock down low pioneer buildings. If this one has been

THE Bangkok Times of 27th June say: Great excitement at Koh-si-Chang! A riot on board the Loo Sok ! The S. O. S. Co.'s good ship Loo Sok (Captain A. Benson) was the scene of a terrific rumpus at about 11 p.m. on Saturday last, the 20th instant, while lying at anchor at Koh-ai-Chang, THE statutory meeting of the Institution of loading rice for Hongkong-sticks, stones, boxes, belayingpins, etc., etc., flying through the air like chaff before the wind was held last evening at the rooms of the for a few moments. What the cause of the institution. Mr Gillies, President of the fracas was we know not; all we have heard is to the effect that Captain Benson was set upon by a large number of Cantonese coolies, who were loading the vessel, shortly before midnight, and that the Chinese succeded in breaking two of the captain's ribs, on the right side of the body. The affair seems to have been very serious for the next morning (21st.) an official inquiry was held into the circumstances connected with the trouble at which the wounded captain was present and identified two out of 45 Chinamen who had been promptly arrested by order of His Highness Prince Damroug. The two spotted men are to encounter in its initial stages; but during going to look through the bars of a prison cell for exactly six months; while one of them, to assist him to retain details of the better than they could have expected. inquiry in his memory for many years to come, is to receive forty blows with a rattan, laid on by a six-feet-two gaoler !

> THE Resident of Pahang takes the following hopeful view of future prospects there; -Although the financial position of Pahang, as shewn by the Statement attached to the report, has not realized the expectations untertained at the time when the estimates for the year under review were framed, it may still be confidently asserted that the ultimate financial success of the State is merely a matter of time. At the commencement of the year, it was believed that greater results would be accomplished by the mining companies than have as yet been achieved, and the revenue has accordingly failen short of the estimate on those heads which depend directly and indirectly on the progress made by the mines of Palining. Nevertheless, the past year has been a year of progress, and sufficient indications have been obtained that the aucceas of the State as a mining country is now practically assured and that each its limits. In the course of his report for last year, the Resident further states -'The Ponjum and Sunger Due Semantan Company, Limited, has done conscientious work on the Penjum Convession with, I regret to report, but poor results. On the mining operations were commenced, but have since been abandoned, owing to the great mortality among the coolies. Prospecting operations are now being carried on there on a greatly reduced scale. The time for prospecting &c., allowed to this Company having expired on the 27th April last, a further extension of three years was granted with the nanction of His Excellency

he Governor.
